

PRODUCT INTRODUCTON

Meet the newest members of the MAX FAMILY of products, the **MOBILAIR-1.0 SCH** and the **MOBILAIR-1.5 SCH**. Both are well designed and attractively priced, featuring reverse pulse jet cleaning, 115 volt operation and our renowned solid tube externally articulated **SUPER FLEX** capture arm.

We think that you'll be amazed at how we've managed to package so much quality and performance, at a price so low!

If the time has come to establish a relationship with a 'different kind of company' we're up to the challenge.

We've never disappointed a customer and we'll not let you down either.

If you'd like to find out more about our diverse product line please contact us at your convenience.
