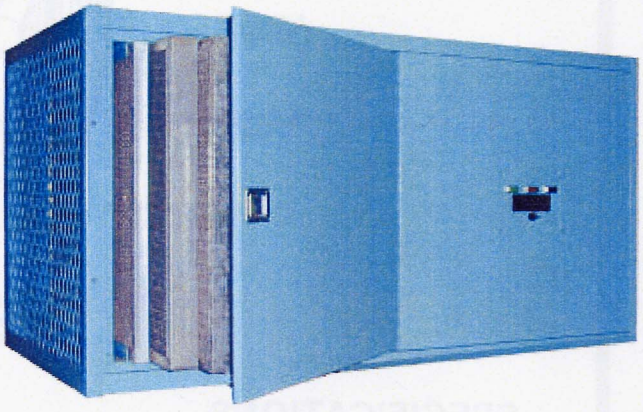
Industrial - Commercial Air Cleaner

- SAVES ENERGY
- INCREASES COMFORT
- ADDED SAFETY
- INCREASED PRODUCTIVITY
- REDUCE EXHAUST REQUIREMENT
- CONTROL AIRBORNE PARTICLES



TEXAS ELECTRONIQUES has been a leader in the air cleaning industry for almost 30 years and offers a media based self-contained filter system for the control of airborne particulate, Utilizing interception filtration, this multi-staged air cleaner offers superior efficiency to strip sib-micron and larger particles from the air .

INTERCEPTION FILTRATION

Recent breakthroughs in the use of random fiber medias have lead to the development of filters that are able to capture sub-micron particulate and to hold and accumulate them insubstantial quantities. Filter efficiencies are measured and rated in accordance with ASHRAE Standard 52-76. **TEXAS ELECTRONIQUES** offers different filter choices with graduating efficiencies in order to resolve specific indoor air filtration problems.
